

WORK FROM HOME THE NEW NORMAL

The Covid-19 pandemic has transformed how we execute organizational workloads. In the wake of this global health crisis, millions of businesses had to become remote ready to support their employees working from the safety of their homes.

Over the past few months, a robust Work from Home (WFH) platform has become an essential element for businesses. To remain in business and gain the much needed competitive edge, organizations will have to embrace WFH as the new normal.

IMPORTANCE OF WORK FROM HOME

With mass scale lockdowns looming yet again, organizations will have to provide secure access to data and applications for remote employees. In these challenging circumstances, the cloud hosted WFH solutions offered by ATSG Cloud can be a true lifesaver.

MEET REGULATORY COMPLIANCE STANDARDS

As highlighted earlier, you need a WFH solution that's secure and enables you to meet today's stringent compliance standards. ATSG Cloud data centers comply with HIPAA, ISO 27001, NIST 800-53/FI, PCI DSS, SOC Type I and II, SS 507, SS 567 and TVRA.

These are some of the leading international standards for security and privacy of data stored over the cloud. By leveraging ATSG Cloud architecture for your remote work needs, you will become compliant with the above laid down security standards as well.

ATSG CLOUD – A TOP WFH ENABLER

We are a leading Cloud Service Provider (CSP) with a global footprint of data centers. ATSG Cloud capable Hosted Virtual Desktops are ideal to meet the Work from Home needs of your organization. We also offer integrated software and apps for productivity needs.

In case you want to host your data over ATSG Cloud's infrastructure, we offer dedicated Cloud Hosted Virtual Servers that will deliver exceptional performance. ATSG Cloud Virtual Database solutions are ideal for setting up e-commerce stores for sustained revenues.

FUTURE OF WORK FROM HOME

We are in this global crisis for the last three quarters and there is still a lot of uncertainty. In these challenging times, it is a prudent option not to invest heavily in on-premise IT infrastructures. Instead, the WFH solutions by ATSG Cloud are the most viable alternative.

Recent studies on the future trend of Work from Home have revealed that many top decision makers are likely to make it a permanent feature, even after this pandemic is over. This further necessitates a robust and secure WFH platform, such as ATSG Cloud services.

WHY ATSG CLOUD FOR YOUR WFH NEEDS

ATSG Cloud is a rapidly growing Cloud Service Provider at the global level. We have an impeccable track record in cyber security, which augments our state of the art cloud infrastructure. We have a wide range of WFH solutions that you can choose from.

Unlike other cloud providers that sneak in hidden costs, ATSG Cloud offers its cloud powered WFH solutions at a flat rate monthly subscription model. This puts all the guesswork out of the equation and makes the job of choosing us all that much easier for you!
