

dinManage has empowered customers with the facility to assign account holders, with the ability to **create**, and **assign profiles**, in dinManage with various levels of access rights to the application. These profiles may then be assigned to sub-users within each account, depending upon their established needs.

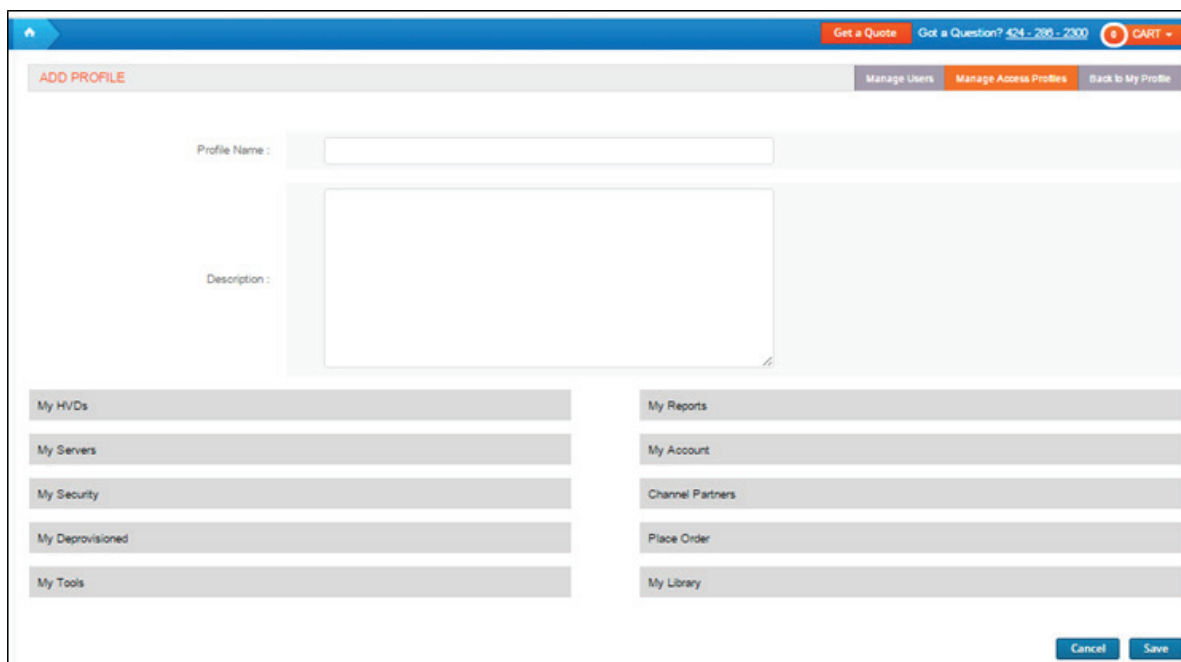

Access Profiles in dinManage

1. The **'Access Profiles'** management feature is available in the **'User Management'** section under the **'My Account'** tab.

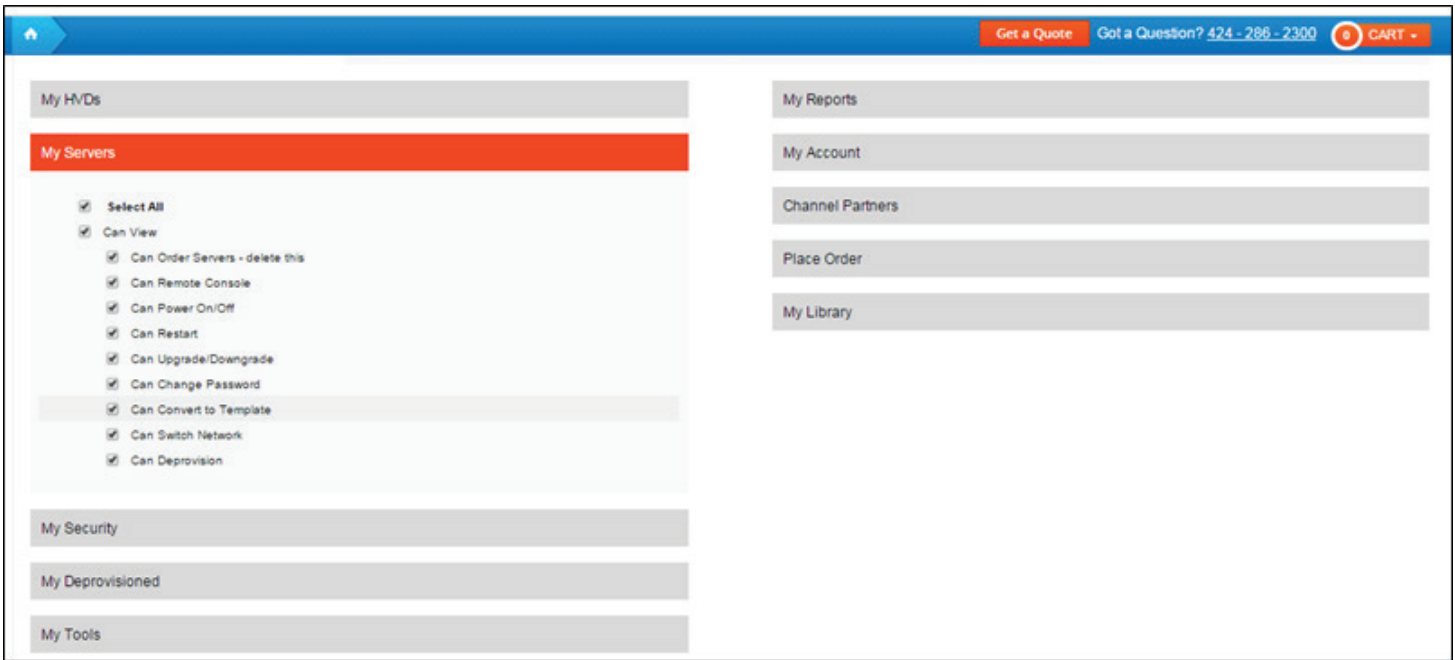

| ID | Name | Type | Assigned User | Creation Date | Actions |
|----|------------------------------|-----------------|---------------|----------------------------|-------------------------------|
| 61 | Access Profile - Tahir Tasks | Custom Profiles | 0 | April 4, 2016, 12:35 a.m. | [Settings] |
| 52 | activity-rights | Custom Profiles | 0 | March 31, 2016, 2:57 a.m. | [Copy] [View] [Edit] [Remove] |
| 15 | admin copy | System Profiles | 0 | March 27, 2016, 11:17 a.m. | [Settings] |
| 35 | Copy of that | Custom Profiles | 0 | March 30, 2016, 1:57 a.m. | [Settings] |
| 56 | nazia123 | Custom Profiles | 0 | March 31, 2016, 7:13 a.m. | [Settings] |

2. Super Admin Users will be able to **CREATE** access profiles as per their own organizational needs by clicking 'Add Profile', which lists down all of the 'Actions' that may be performed within dinManage.

The 'ADD PROFILE' form includes the following fields and elements:

- Profile Name:** A text input field.
- Description:** A larger text area for detailed information.
- Navigation:** 'Manage Users', 'Manage Access Profiles', and 'Back to My Profile' tabs.
- Footer:** 'Cancel' and 'Save' buttons.
- Side Navigation:** A list of menu items including 'My HVDs', 'My Servers', 'My Security', 'My Deprovisioned', 'My Tools', 'My Reports', 'My Account', 'Channel Partners', 'Place Order', and 'My Library'.

- Super Admins would be able to select which rights need to be added to the profile being created, and once done, they would be able to assign these profiles to their sub-users from the newly updated **'Manage Users'** feature, under the **'User Management'** section.

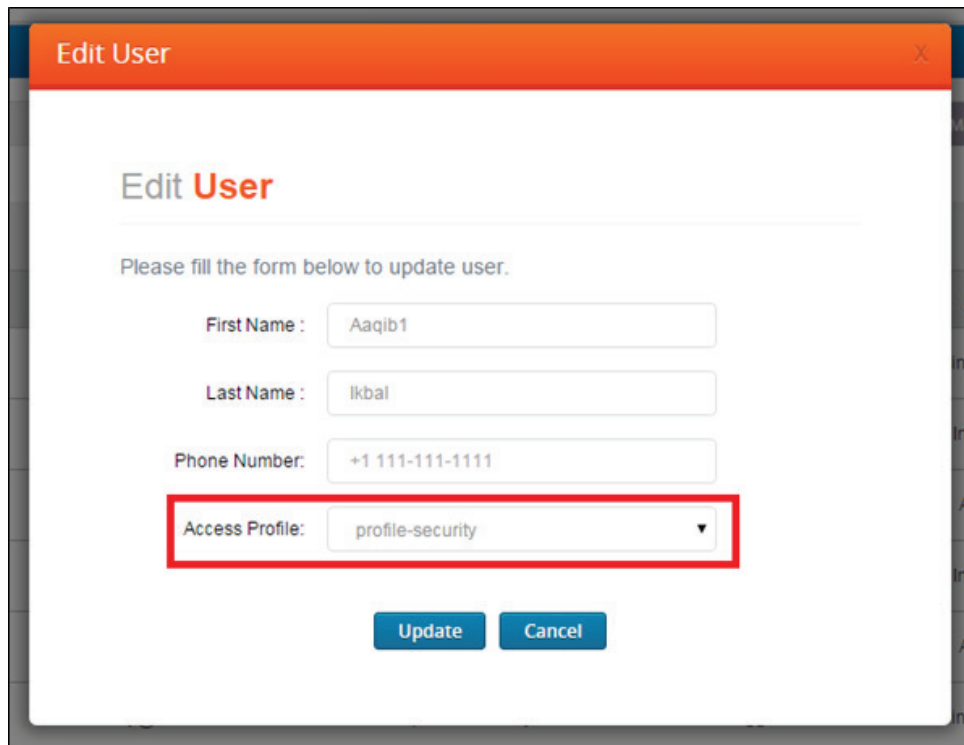

Assigning a Profile in dinManage

- The management of sub users from dinManage has been changed and updated in dinManage.
The new page now displays more information about sub-users, which includes:
 - The 'Access Profile' assigned to each user
 - The 'Last Login' Date and Time of each User
 - The account 'Status' of each user

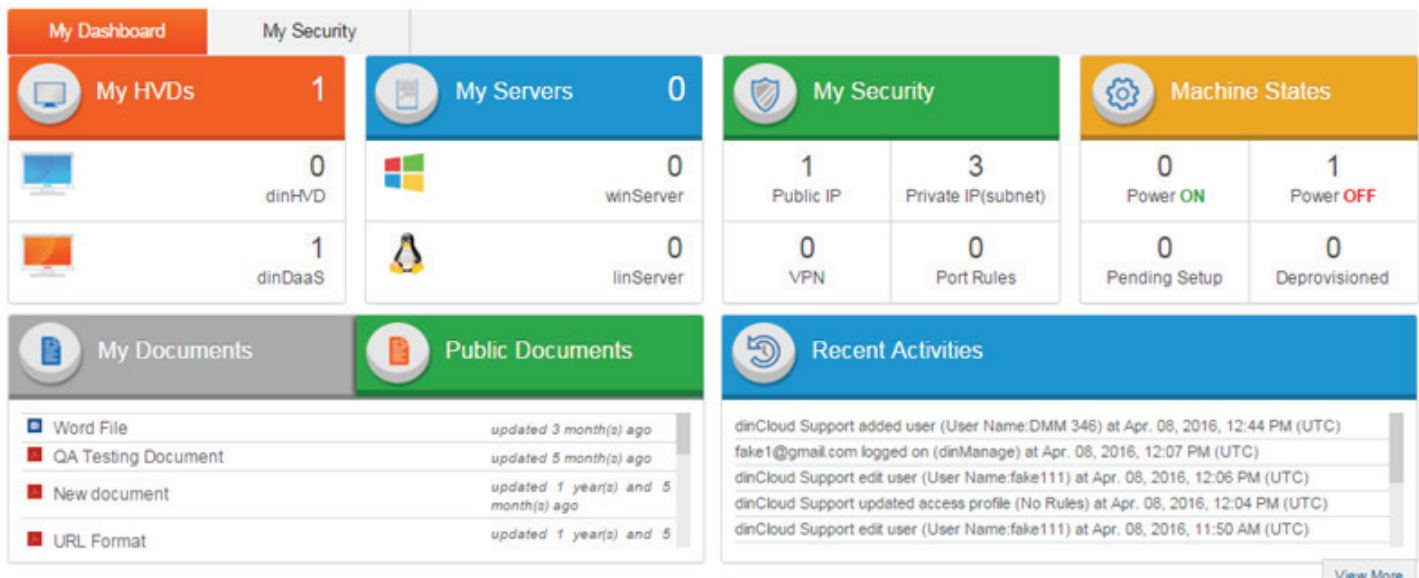

| MANAGE USERS | | | | | | | Manage Users | Manage Access Profiles | Back to My Profile |
|--------------------------------|-----------------------------|------------------|---------------------------|--------------------|---------|--|------------------------------|------------------------|--------------------|
| | | | | | | | Add User | | |
| Show 25 entries | | | | | | | Search: <input type="text"/> | | |
| Name | Email | Access Profile | Last Login (UTC) | Status | Actions | | | | |
| 48hours Testing | 48hours2@gmail.com | profile-servers | Never Logged In | Pending Activation | | | | | |
| aaaaaaaaaaaaaaaa bbbbbbbbbb | invite1234@gmail.com | profile-security | March 31, 2016, 8:41 a.m. | Inactive | | | | | |
| Aaqib1 ikbal | aiqbal4@dincloud.com | profile-security | March 29, 2016, 1:08 a.m. | Active | | | | | |
| activate 123 | activate123@gmail.com | profile-security | March 31, 2016, 1:52 a.m. | Inactive | | | | | |
| Activation Pending | activationpending@gmail.com | Super Admin | March 30, 2016, 5:05 a.m. | Active | | | | | |
| createdby sub | createdby@subuser.com | profile-security | Never Logged In | Pending Activation | | | | | |

2. Clicking the **'Actions'** button against a sub-users name, the Super Admin user may:
 - a. Change the users password
 - b. Edit the users information
 - c. Change the users account status from 'Active' to 'Inactive', or vice versa
 - d. Remove the user from dinManage altogether

3. The access profile assigned to the user may be changed from the **'Access Profile'** dropdown when the **'Edit User'** option is clicked.

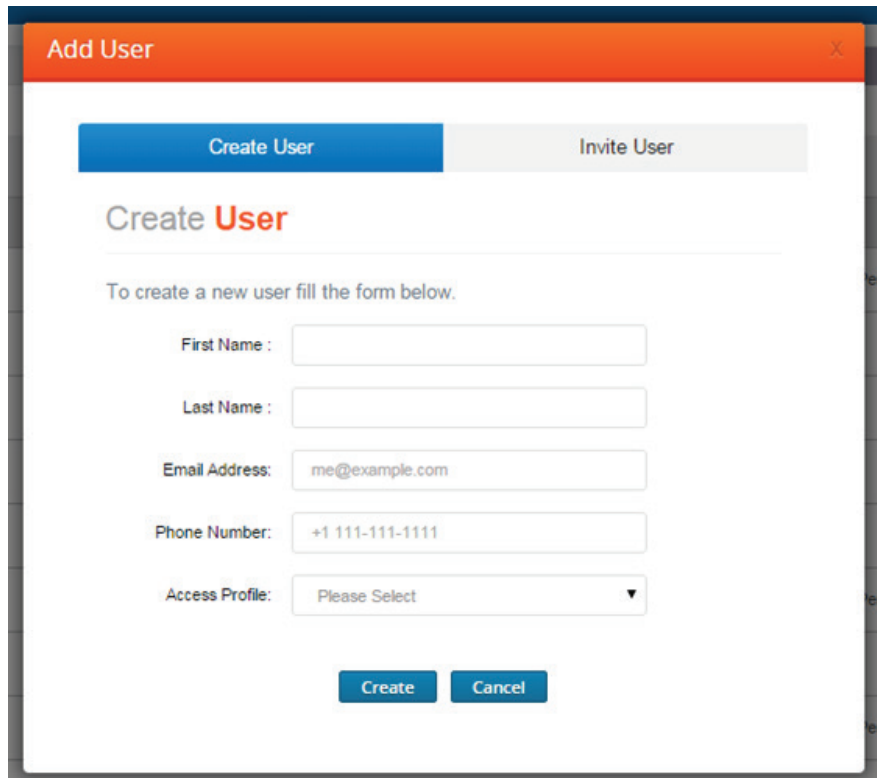

4. Once a profile has been assigned, the user will be able to perform only those actions, that have been allowed by the Super Admin. In the screenshot below, a sub-user is only able to view the 'My Security' tab in his dinManage account.

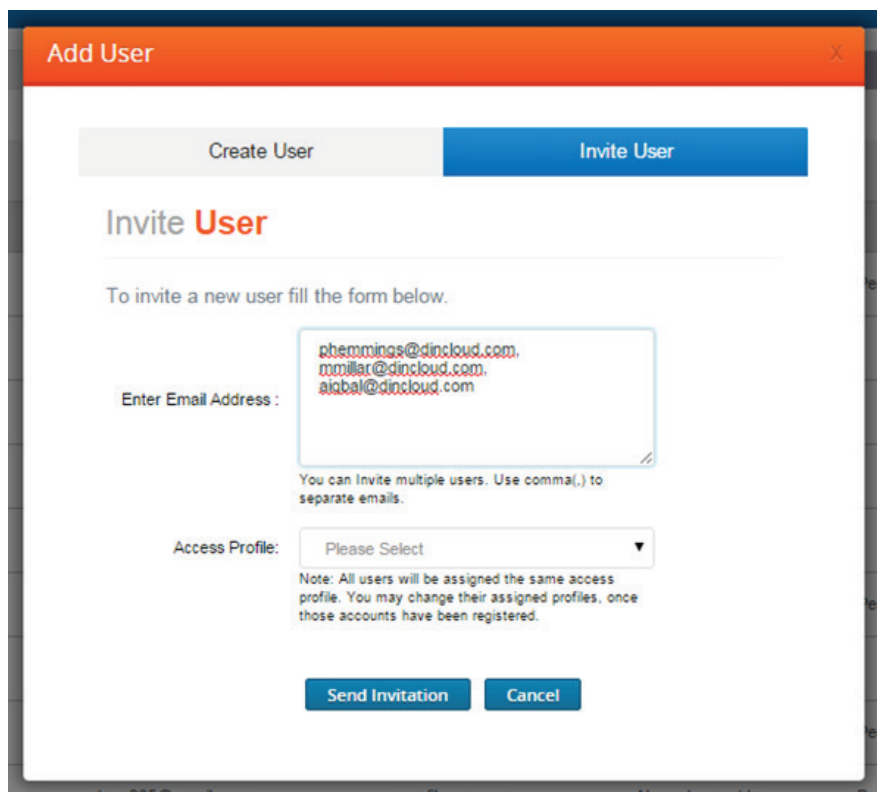

User Addition in dinManage

1. The 'User Addition' feature in dinManage has also been updated.
2. Clicking 'Add User' from the 'Manage Users' section in dinManage, now provides the option of either creating a sub-user, or inviting multiple sub-users at the same time.

The screenshot shows a modal window titled "Add User" with a close button (X) in the top right corner. At the top, there are two buttons: "Create User" (highlighted in blue) and "Invite User" (greyed out). Below the buttons, the heading "Create User" is displayed. A sub-heading reads "To create a new user fill the form below." The form contains five fields: "First Name" (empty), "Last Name" (empty), "Email Address" (containing "me@example.com"), "Phone Number" (containing "+1 111-111-1111"), and "Access Profile" (a dropdown menu with "Please Select" and a downward arrow). At the bottom of the form are two buttons: "Create" and "Cancel".

The screenshot shows the same "Add User" modal window, but with the "Invite User" button highlighted in blue and the "Create User" button greyed out. The heading "Invite User" is displayed. A sub-heading reads "To invite a new user fill the form below." The form contains two main sections: "Enter Email Address" and "Access Profile". The "Enter Email Address" section has a text area containing three email addresses: "phemmings@dincloud.com", "mmillar@dincloud.com", and "ajbba@dincloud.com". Below this text area is a note: "You can Invite multiple users. Use comma(,) to separate emails." The "Access Profile" section has a dropdown menu with "Please Select" and a downward arrow. Below the dropdown is another note: "Note: All users will be assigned the same access profile. You may change their assigned profiles, once those accounts have been registered." At the bottom of the form are two buttons: "Send Invitation" and "Cancel".

- The 'Invite User' feature lets the Admin user invite multiple users with the same access rights.
- An email is sent over to the sub-users, with a link to a sign-up form, which collects their credentials from them, and logs them on to dinManage.
- Once the invitations have been sent over by the Admin user, the information provided by the Admin is added to the 'User' list in dinManage with 'Pending Activation' as the status.

| Name | Email | Access Profile | Last Login (UTC) | Status | Actions |
|--------------------------------------|-----------------------------|------------------|---------------------------|--------------------|---|
| .48hours Testing | 48hours2@gmail.com | profile-servers | Never Logged In | Pending Activation | [Settings] [Dropdown] |
| aaaaaaaaaaaaaaaaaaaa bbbbbbbbbbbb | invite1234@gmail.com | profile-security | March 31, 2016, 8:41 a.m. | Inactive | [Settings] [Dropdown] Resend Invitation Remove User |
| Aaqib1 lkbal | aiqbal4@dincloud.com | profile-security | March 29, 2016, 1:08 a.m. | Active | [Settings] [Dropdown] |
| activate 123 | activate123@gmail.com | profile-security | March 31, 2016, 1:52 a.m. | Inactive | [Settings] [Dropdown] |
| Activation Pending | activationpending@gmail.com | Super Admin | March 30, 2016, 5:05 a.m. | Active | [Settings] [Dropdown] |
| createdby sub | createdby@subuser.com | profile-security | Never Logged In | Pending Activation | [Settings] [Dropdown] |

- Furthermore, for users with 'Pending Activation' as their status, the Admin will be able to resend the account activation email, in case the user misplaced it the first time around.
